2. PrescribersConnection Application Integration Requirements
3. PrescribersConnection Script 10.6 Implementation
4. Connectivity through PrescribersConnection Network

**About SuiteRx**

*SuiteRx Intelligent Pharmacy Software (IPS) is designed by pharmacists for pharmacists. Providing the most complete, fully integrated, pharmacy business software, the SuiteRx platform operates solely to maximize patient care, streamline work flow and improve net profits.  Pharmacists utilizing SuiteRx's robust functionality find that the once daily manual tasks are now easily automated leaving more time for patient-focused care.  Supporting Retail, Compounding, Long-Term Care, Combo, Specialty, and 340B pharmacies, SuiteRx establishes a foundation for growth as the healthcare market changes based on patient needs. With huge savings over competitors and 365 days of support, it's no wonder so many pharmacies are switching to SuiteRx.*
